

Week 3 — HTML Bug Fixing Report

CET138 Full Stack Development ·

Lab Activity: Find the Errors .

ID	What file?	What was the error?	What's the fix?
1.	beaches.html	<code><title>/title></code> (Syntax error. The opening <code><title></code> tag is incomplete because it is missing the <code>></code> after title.)	Add <code>'>'</code> after first title <code>"<title></title>"</code>
2.	beaches.html	<code><p></p></code> <code><p>The nearby marina has facilities for sailing, surfing, kayaking and power boating, and the Sunderland coastline is also excellent for scuba diving./p></code> (Syntax error. Missing <code><</code> symbol in closing tag in <code>/p></code>)	Add <code>'<'</code> after first title <code>"<p></p>"</code>
3.	culture.html	<code><h1>Cultur</h1>e</code> (Incorrect tag placement. The <code>'e'</code> in culture is outside of tag.)	Add <code>'e'</code> inside h1 tag <code>"<h1>Culture</h1>"</code>
4.	culture.html	<code>Watch the Red Arrows at the annual Sunderland International Airshow</code> (Missing closing. The <code></code> is missing)	And <code>''</code> in end <code></code>
5.	culture.html	<code>"St peters campus"</code> by <code>The JPS</code> - Self-published	Remove <code><p></p></code> from inside the <code>title=""</code> attribute and keep only plain text.

		work by The JPS. Licensed under CC BY-SA 3.0 via Wikimedia Commons.</p> (Invalid attribute value error. <p></p> should NOT be inside title="". Also, there is an extra closing </p> at the end without a matching opening <p> tag.)	
6.	entertainment.html.html	<p>Sunderland is a regular stop on the gig circuit too - </> (Invalid closing tag error.)	Add 'p' between '/'&'>' " <p></p>
7.	entertainment.html.html	<p></p> ('<p></p>' is outside of body and html tag.)	Put ' ' inside html tag.
8.	index.html	href="www.sunderland.ac.uk" (The link is missing http:// or https://.)	Fix it by adding "https://"
9.	index.html	<p>"Roker beach. - geograph.org.uk - 295241" by Roger Cornfoot. Licensed under CC BY-SA 2.0 via Wikimedia Commons. (Missing closing. The </p> is missing)	And '</p>' in end " <p><p></p></p>

10.	index.html	<pre><body></BODY></pre> (body tag should be in lower case.)	Make both tag in lowercase. “<body></ body >”
11.	sport.html	<pre><title>Untitled Document</title> </heaD></pre> (Opening tag is missing and ‘D ’ is in uppercase.)	Fix it by adding opening tag and lowercase closing tag. “<head></ head >”
12.	sport.html	<pre><p> <strng>Sunderland Wall:</strng> one of the UK's highest competition-grade indoor climbing walls. </p></pre> (Wrong tag name ‘ strng’)	Make ‘ strng’ into “ ”
13.	sport.html	<pre><p></p></pre> (Wrong image link path. This is a local computer path and will not work on a website.)	Fix it by href="images/Unknow n-2.png"
14.	sport.html	<pre><body></pre> (missing closing tag ‘</ body >’)	Fix it by “<body></ body >”
15.	sport.html	<pre><p>Sport at the University is very well catered for - for full information see the Institute of Sport website.</p1></pre> (Wrong closing paragraph tag ‘</p1>’)	Fix it by “<p></p>”
16.	sport.html	<pre><p1>The City of Sunderland also has a great range of sport facilities, ranging from snowboarding to scuba diving, rock climbing to kayaking.</p></pre> (Wrong opening paragraph tag ‘</p1>’)	Fix it by “<p></p>”
